Virus Diseases In Laboratory And Captive Animals (Developments In Veterinary Virology)
The influence of basic science, particularly molecular biology, in human and veterinary medicine revolutionized thinking in many aspects and changed fundamentally and creatively the classical strategy for research and prevention of infectious diseases. Genetic engineering and related disciplines have progressed to a remarkable degree over the last decade and now form the keystone supporting medicine. These are strong and efficient instruments for health and disease oriented research and their application gives the opportunity to receive more answers and not only more questions. The prime objective of this book is to create new knowledge within the medical disciplines and inspire colleagues working in this field with the unity and unambiguous importance of this science and its technologies for identifying, clarifying and planning new strategies for curing and preventing disease. This book contains original studies on the molecular biology of animal viruses. Some of the viruses discussed in this book are also hazardous to man. In this light it can be considered as a contribution to modern education on the human infectious diseases. From this point of view the book contains a chapter on Hantaan virus that causes no detectable disease in animals but hemorrhagic fever with renal syndrome has been attributed to infection of humans by this virus.

**Book Information**

Series: Developments in Veterinary Virology (Book 6)
Hardcover: 568 pages
Publisher: Springer; 1988 edition (November 30, 1987)
Language: English
ISBN-10: 0898389887
Product Dimensions: 6.1 x 1.3 x 9.2 inches
Shipping Weight: 1.6 pounds (View shipping rates and policies)
Average Customer Review: Be the first to review this item
Best Sellers Rank: #9,416,819 in Books (See Top 100 in Books)  #25 in Books > Medical Books > Veterinary Medicine > Virology  #99 in Books > Medical Books > Veterinary Medicine > Microbiology  #2573 in Books > Textbooks > Medicine & Health Sciences > Veterinary Medicine > General

Virus Diseases in Laboratory and Captive Animals (Developments in Veterinary Virology) Enzootic Bovine Leukosis and Bovine Leukemia Virus (Developments in Veterinary Virology) Current
Developments in Animal Virology: Papers Presented at the First Icgeb-Uci Virology Symposium
New Delhi, February 1995
Geographical Distribution of Animal Virus Diseases (Experimental Virology)
Captive Prince: Book One of the Captive Prince Trilogy
Prince’s Gambit: Captive Prince Book Two (The Captive Prince Trilogy)
Avian Leukosis (Developments in Veterinary Virology)
Newcastle Disease (Developments in Veterinary Virology)
Laboratory animals in vaccine production and control: Replacement, reduction and refinement (Developments in Hematology and Immunology)
Virus Infections of Rodents and Lagomorphs: Virus Infections of Vertebrates Series, 1e
Virus Infections of Birds: Virus Infections of Vertebrates Series, 1e
Recent Advances in Virus Diagnosis: A Seminar in the CEC Programme of Co-ordination of Research on Animal Pathology, held at the Veterinary Research ... 1983 (Current Topics in Veterinary Medicine)
Modern Concepts of Immunology in Veterinary Medicine: Poultry Immunology (Advances in Medical & Veterinary Virology Immunology and Epidemiology)
Ruminant Pestivirus Infections: Virology, Pathogenesis, and Perspectives of Prophylaxis (Archives of Virology Supplement)
Fields Virology (Knipe, Fields Virology)-2 Volume Set by Knipe, David M. Published by Lippincott Williams & Wilkins 6th (sixth), 2-volume set edition (2013) Hardcover
Principles of Molecular Virology (Standard Edition), Fourth Edition (Cann, Principles of Molecular Virology)
Fields Virology (Knipe, Fields Virology)
Applied Veterinary Epidemiology (Developments in Animal and Veterinary Sciences)
New methods and recent developments of the stereochemistry of ephedrine, pyrrolizidine, granatane and tropane alkaloids, (Recent developments in the chemistry of natural carbon compounds)
A text-book of veterinary obstetrics: including the diseases and accidents incidental to pregnancy, parturition, and early age in domesticated animals
